

INTERIM MEETING OF VHF & up Committee of IARU REGION 1
VIENNA April 15 - 17. 2016

Document N°	VIE16_C5_28	Society	ARI
Subject	Unique Template for Contest Results		
Author/ contact	Alessandro Carletti, IV3KKW	Status	Proposal

Introduction

Now the IARU contest robot is well used between the VHF Contest Managers, this tool is very useful and it's possible to manage a lot of information from each uploaded log.

Proposal

I propose to use a common template for the final classifications taking the information for each field from the EDI Logs, we do the same in the Italian contest results and it's easier to compare the results between stations with similar setup.

Here the proposed template:

Band 144 MHz															
Single Operator															
n°	Call	Locator	Aslm	Antenna	Power	Qso	Declared	Qso-DX	Qrb-DX	Recalc.	Errors	QRB err.	Final	Err %	Unics
1															
2															
3															
...															

Band 144 MHz															
Multi Operator															
n°	Call	Locator	Aslm	Antenna	Power	Qso	Declared	Qso-DX	Qrb-DX	Recalc.	Errors	QRB err.	Final	Err %	Unics
1															
2															
3															
...															

Band 144 MHz															
Single Operator 6 Hours															
n°	Call	Locator	Aslm	Antenna	Power	Qso	Declared	Qso-DX	Qrb-DX	Recalc.	Errors	QRB err.	Final	Err %	Unics
1															
2															
3															
...															

Band 144 MHz															
Multi Operator 6 Hours															
n°	Call	Locator	Aslm	Antenna	Power	Qso	Declared	Qso-DX	Qrb-DX	Recalc.	Errors	QRB err.	Final	Err %	Unics
1															
2
