

INTERIM MEETING OF VHF & up Committee of IARU REGION 1
VIENNA April 15 - 17. 2016

Document N°	VIE16_C5_34	Society	ARI
Subject	Discussion about the status of 50 MHz Beacon		
Author/ contact	Alessandro Carletti, IV3KKW	Status	Agenda item

During the C5 Interim Meeting in Vienna in 2010 there was a proposal by RSGB to move the 6m beacon into a new window (50.400-499).

During the Sun City General Conference in 2011 the proposal was adopted and it was given 3 years to complete the move for all the beacons in IARU Region 1 (deadline Aug 2014).

In Varna, in the 2014 General Conference it was discussed that the move was not completed and the deadline was postponed at December 31st 2015.

ARI proposes a discussion about the status of the move of 50 MHz beacons on the new window.
